

Amendments to the Specification:

Please replace the paragraph starting on page 7, line 19, with the following amended paragraph:

figure 2 diagrammatically shows (a) a preferred embodiment of the front wheel suspension assembly and (b) an embodiment for a non-steering wheel suspension assembly,

Please replace the paragraph starting on page 8, line 4, with the following amended paragraph:

Upper view (a) of Figure 2 shows details of the front wheel suspension assembly of the vehicle shown in figure 1, as an isometric view. The assembly comprises pendulum arms 1 attached to a sub-frame (assembly cradle) 2. The front wheels (not shown) are revolving around axles 3 being integral with carriers 5. Carriers 5 are steered around king pins 4 when the steering arm extension of carriers 5 is actuated.

Please add the following new paragraph after line 24 of page 9:

Lower view (b) of Figure 2 shows details of a wheel suspension assembly similar to the upper view of Figure 2, but without the steering components 8 through 11 so as to be adapted for installation on a pair of non-steering (e.g., rear) wheels of a vehicle.
